Project

Login Page
Using HTML and CSS
Responsive Food Ordering Website
Using HTML and CSS
Gym Website
Using HTML and CSS
College Trip Form
I developed a PHP-based college trip registration form that captures participants' details and stores them in a MySQL database upon submission
Portfolio
A responsive personal portfolio website using HTML, CSS, and JavaScript.
Snake Game
Using HTML, CSS, and JavaScript. The game includes features such as controlling the snake using arrow keys, collecting food to grow longer, collision detection with the snake's body and walls, and keeping track of the player's score. The game also incorporates audio effects for interactions like eating food and game over.
Tic Tac Toe
My Tic Tac Toe project is a JavaScript-based game where players take turns to mark X or O in a 3x3 grid, aiming to get three of their marks in a row, column, or diagonal. It includes audio effects, win detection, and a reset option.
Music Player
I developed a responsive music player website that combines HTML, CSS, and JavaScript to create an engaging interface for playing collection of songs.
